Education

Shady Side Academy, Pittsburgh, PA

Expected May 2027

GPA 4.0/4.0. Student Body President; CS Department Associate; designing and teaching the school's AI class; captain of cross-country and track teams.

AI Policy & Governance

Frontlines Foundation

Jun 2025–Present

National Director of AI Policy; Policy Fellow

- First-authored AI education legislation (HB171) that passed the Virginia Senate unanimously and was signed into law by Gov. Spanberger; now leading policy efforts in VA and PA.
- Lead college AI policy fellowship funded by OpenAI and Vital Voices.
- Lead digital literacy initiatives that have reached 18,000+ people, helping students and communities prepare for increasingly capable AI systems.

Center for Youth and AI

Sep 2025–Present

Executive Director

- Lead a youth AI advocacy organization that has raised \$140,000+ and engaged 5,000+ participants, with support from Oxford's Global Priorities Institute.
- Completing follow-up work on a national poll of 1,016 teenagers covered in *TIME* and *Fortune*: an AI voter guide and new polling with AI4K12.

UN Major Group for Children & Youth

2025

Policy Contributor

- Contributed to AI governance papers representing 7,000+ youth entities across 180+ countries, feeding into the Global Digital Compact adopted by all 193 UN Member States.

Research

Independent Research — AI Character & Decision-Making

May 2026–Present

Independent Researcher

- Developing empirical evaluations to elicit and assess AI character and decision-making; pilot study complete (character-evals.org), currently fundraising for the main study.
- Supported by individuals and programs at Forethought, Cambridge, ALTER Israel, Google DeepMind, CMU, and Non-Trivial.

Carnegie Mellon University — Sway

Jun 2025–Present

AI Research Intern

- Design and operationalize philosophical ideals and AI models for Sway, a 10,000-user platform for constructive discourse between people holding opposing views, used at Universities such as Harvard and Stanford.
- Lead study of how the Hostile Media Effect materializes in human–AI interaction in preparation for publication.

Frontier-Bench

Jun 2026–Present

Frontier Evaluation Researcher

- Developed novel metrics and algorithms to assess evaluation difficulty and prevent reward hacking; papers under review at AAAI and NeurIPS workshops.

Princeton University

Oct 2025–Present

AI Research Intern

- Studied demographic patterns in anthropomorphism of AI systems and their downstream effects on AI policy views; first-author paper accepted to IC2S2.

Selected Recognition

- **HouseOfCode Lightning Talk** (2025) — 1 of 6 of 400+ national winners selected to speak at the U.S. Capitol on AI ethics.
- **Boys Nation Senator for Pennsylvania** (2026) — 1 of 2 selected statewide, 100 nationally.
