Education

Shady Side Academy, Pittsburgh, PA *Expected May 2027*

GPA 4.0/4.0. Student Body President; Princeton Prize (highest academic standing in class); CS Department Associate; designing and teaching the school's AI class; captain of cross-country and track teams.

Research

Independent Research — AI Character & Decision-Making *May 2026–Present*

Independent Researcher

- Developing empirical evaluations to elicit and assess AI character and decision-making; (character-evals.org)
- Funded by Forethought, METR, ALTER, and Non-Trivial. Advisers at Google DeepMind, CMU, and Cambridge University.
- Accepted presentations at NeurIPS HAIC, Agents in the Wild, and CMU AI Interpretability and Agency Workshop.

Carnegie Mellon University — Sway *Jun 2025–Present*

AI Research Intern

- Designed and operationalized philosophical ideals of "good discourse" for Sway, a 20,000-user platform for constructive discussion between people holding opposing views, used at universities including Harvard and Stanford.
- Led surveys of >500 students to study perceived bias and persuasive regression-to-mean in human-AI interaction.

Terminal-Bench-4.0 *Jun 2026–Present*

Frontier Evaluation Researcher

- Developed novel metrics and algorithms to assess evaluation difficulty and prevent reward hacking; first-author paper accepted to NeurIPS 2026 "Who Verifies the Agents" workshop.

Princeton University *Oct 2025–Sep 2026*

AI Research Intern

- First-author on a computational study of 283,895 AI-companion comments; co-developed AnthroIndex and demographic inference methods; first-author paper presented at IC2S2 2026 and IEEE AIxHeart.

AI Policy & Governance

Frontlines Foundation *Jun 2025–Present*

National Director of AI Policy; Policy Fellow

- Conceived and drafted AI education legislation (HB171) that passed the Virginia Senate unanimously and was signed into law by Gov. Spanberger; now leading policy efforts in VA and PA.
- Lead college AI policy fellowship funded by OpenAI and Vital Voices.
- Lead digital literacy initiatives that have reached 18,000+ people, helping students and communities prepare for increasingly capable AI systems.

Center for Youth and AI *Sep 2025–Present*

Executive Director

- Lead a youth AI advocacy organization that has raised $140,000+ and engaged 5,000+ participants.
- Selected by NIST to advise on national AI policy to reduce barriers to AI in education.
- Completing follow-up work on a national poll of 1,016 teenagers covered in *TIME* and *Fortune*: an AI voter guide and new polling with AI4K12.

Selected Publications & Recognition

- **Journal of Science Policy & Governance** (2026) — Sole-author policy memo, *Closing the Agent-Identity Gap in U.S. Biosecurity Legislation: Recommendations for S. 3741 and S. 3468*, accepted; forthcoming Issue 28-2.
- **Sage Publishing** (forthcoming Jun 2027) — contributor to *Using AI for Research* on applying AI tools in research.
- **American Legion Boys Nation** (2026) — 1 of 2 delegates selected from Pennsylvania; 100 nationally from 13,000+ Boys State participants.
- **HouseOfCode Lightning Talk** (2025) — 1 of 6 of all Congressional App Challenge winners (400+) nationwide selected to speak at the U.S. Capitol on AI ethics.
